How much do you really know about drugs and their dangers? What drugs are the most dangerous? What drugs are the most used? And what about Rock n’ Roll? Who first recorded “Last Kiss”? (No, it wasn’t Pearl Jam.) Who is considered the “King of Rock n’ Roll”? Test your knowledge Wednesday, March 5 at 8:00 p.m. in Bede Ballroom. Prizes will be awarded to the first place team.

All other students MUST register in-person. All in-person registrations require adviser approvals.
The UMC Golden Eagles Hockey Team ended its season earning the Midwest Collegiate Hockey Association (MCHA) regular season title and went to capture the championship trophy at the MCHA postseason tournament. This is UMC’s second MCHA championship in four years. The MCHA All-Tournament Team was named at the conclusion of the action on Sunday, February 23, with UMC goalie Erik Kraska (Plymouth, MN) receiving MVP honors for his work in helping the Golden Eagles to the championship. The rest of the All-Tournament team included Marian forward Dan Odegard (Oakdale, MN); UMC forwards Jeff Johnston (Carman, Manitoba, Canada) and Ben Perkins (New Brighton, MN); Marian College defenseman Dan Weymann (Oakdale, MN); Golden Eagle defenseman Todd Chandler (Crookston, MN); and Lawrence University goalie Daniel Ljung (Avesta, Sweden). MCHA Post-Season Awards were presented on Saturday, February 22. UMC Head Hockey Coach Gary Warren received MCHA Coach of the Year honors. Warren led his team to their third regular season title in four years as they finished with a 10-3-3 record, edging Marian College for the title in the last game of the regular season.

UMC senior Joe Hasz of Foreston, Minnesota, broke the Northern Sun Intercollegiate Conference (NSIC) all-time record for career scoring in men’s basketball conference play during a Feb. 22 game against Winona State. Hasz now has 1,342 points, breaking the previous record of 1,329 set back in 1981 by Dan Hagen of St. Cloud State. That could go higher, as there are still two games left in the regular season. Hasz was also honored as the lone senior on this year’s men’s basketball team.

Mandy Hraban and Amber Michaelis played their last home basketball game as Golden Eagles on Saturday, February 22, 2003. Good Job Ladies!
Should I try to put a fire out?

Only if it is small and you have been trained to use a fire extinguisher. Your safety is more important than a building or its contents. The fire department should still be notified to investigate and check scene of the fire.

Why do only certain alarms go off in Kiehle, the Library and Dowell?

With the renovation of Kiehle, the new student technology center on the second floor of the library was added as part of the Kiehle project. It is on the Kiehle fire alarm system. When the fire alarm goes off in Kiehle, the horns, strobes and fire doors in the technology center are activated. Those in the original library do not activate.

The fire alarms in the library are controlled by the fire alarm panel in Dowell. So when an alarm sounds in the library, the fire doors in Dowell close to protect fire spread and smoke penetration through the link. The strobes in Dowell will also flash. The alarms in Dowell will not sound unless a smoke detector or pull station is activated in Dowell.

If you have questions pertaining to campus environmental health & safety, please forward them to Tom Feiro at -8300 or tfiero@mail.crk.umn.edu. Your questions will be researched and shared with the campus community so we can all learn together.

Are pets allowed in University buildings?

The University of Minnesota “Policy on Unauthorized Animals or Pets in University Buildings or on the Grounds” recognizes that certain animals are important to the University community. Approved animals are managed under the guidance of the Animal Care Committee, Veterinary School, or College of Agriculture. Seeing Eye and hearing aide dogs are allowed, by law, access to University buildings. Under “special circumstances” an animal may be permitted access to buildings and grounds with prior approval.

All other animals and personal pets, including dogs and cats, fall under this policy statement. “In order to minimize unnecessary maintenance, sanitation problems, and classroom distraction, no unauthorized animals and pets will be allowed in University buildings. When pets are walked across University grounds, the standards established in the animal control ordinances or legislative codes of the local community will prevail.”

The City of Crookston Code Book, p222, states that no owner shall allow their pet to “run at large” and must be secured to a collar and durable leash. If a dog defecates outside of the owner’s personal property, the owner is responsible to immediately remove the waste and dispose of it in a sanitary manner.

Aquariums are allowed in dormitory rooms according to the UMC Residential Life Policy Manual.

The full policy may be viewed at: http://www.dehs.umn.edu/policies/unauthorized.html

CSA Offers Support to Those Affected by War

Many of us have recently said goodbye to our friends and family as they headed overseas to bravely defend our country. Now is the time that we, the family of UMC, extend our hands out to those who have been called to active duty and also to those that have been left behind. The Crookston Student Association would like the opportunity to be the channel for those helping hands in the form of care packages, letters, e-mails, etc. If you know of a former UMC student recently called to active duty, or if you are a student with a loved one that has recently been called up, we would like to help you. Please e-mail CSA if you or someone you know needs our support or if you are interested in helping with this cause.

The Crookston Student Association would like to make clear that this is not an effort in support of war, but an effort to support those among us greatly affected by war.

Computer Corner

Dell notebook users: 

SHOCKING news

We are experiencing a high failure rate on the ethernet cards on our Dell notebooks due to high static. Perhaps it’s the new carpeting, the dry winter weather or a number of factors, but we need everyone to take the following steps in order to eliminate static electricity PRIOR to touching your computer.

What to do to avoid static shock:

Once you’ve arrived at your destination, touch a piece of metal (file cabinet, metal door jams, metal unpainted light switch covers, cabinet handles, pipe). This will “ground” you and reduce the amount of static. Hopefully, you won’t get a shock when you touch your computer.

If you are experiencing problems connecting to the network, please bring your computer to the help desk, Kiehle 131, just south of the library. Properties of the Local Area Network will say “Ethernet cable unplugged”. Any questions, please reply, stop by or call the Help Desk at x8000.

Brain Teasers

This week’s winner is Priscilla Dahlen. Priscilla knew the puzzle below left meant “Head in the Sand.” Priscilla can pick up her free movie pass in Bede 106. Can you guess this week’s puzzle? Email your answer to Melonir prior to noon on Thursday, March 13. The winners name will appear in the March 17 Eagle’s Eye.
