Martin Luther King, Jr. Day Holiday January 19
By Eric Burgess 1-23-03

Reflections of a Dream
Remember the dreams of the great Dr. King?
They truly deserve our reflection.
He saw through the schemes of prejudiced men,
and offered a better direction.
His reverence gleams for all of mankind;
and he gave us his love and affection.
He answered the screams of suffering people,
and never accepted rejection.
As hard as it seems his work must go on;
until we can cure this infection.
We must build our esteem and continue to fight;
until men like him win the elections.
When love is supreme and justice prevails;
and we work to change life’s imperfections.
We’ll reflect on the dreams of the great Dr. King;
who knew freedom deserved resurrection.

Great Conversations Series Continues at UMC with “Nurturing the Creative Class”

Robert Bruininks
and Richard Florida
January 20, 2004
Dowell Hall 220
7:30 p.m.

Underscoring the importance of creativity to both community building and urban competitiveness, this conversation will reveal the latest thinking on how governments, universities, developers, and designers can work together to generate creative places and spaces. Prior to becoming the 15th President of the University of Minnesota, Robert Bruininks was Professor and Dean of the College of Education and Human Development and the University’s Provost and Executive Vice President. He talks with Richard Florida, bestselling author of The Rise of the Creative Class. A Professor of Regional Economic Development at Carnegie Mellon University, Florida has designated Minneapolis as having one of the nation’s top ten “thriving creative classes.”
Brain Teasers

This week’s winner is Logan Vold. He knew the answer to the December 8th puzzle. Logan can pick up his free movie pass at the Dowell Info Desk. Can you decipher the simple old saying listed below? For example: “Neophytes' serendipity” would translate to “Beginner’s Luck”. “Surveillance should precede saltation” would translate to “Look before you leap.” Can you guess this week’s puzzle? If you think you know the answer send an e-mail to melonir. A winner will be chosen from the correct answers. The winner will receive a free ticket to the Grand Theatre in Crookston. Email your answer to melonir prior to noon on Thursday, January 15. The winner’s name will appear in the January 20th Eagle’s Eye.

It is fruitless to attempt to indoctrinate a superannuated canine with innovative maneuvers.
Translates to “You can’t teach an old dog new tricks.

A revolving lithic conglomerate accumulates no diminutive bryophytic plants.
What simple old saying does this translate to?
