Comedian Pete Lee
Wednesday, September 15, 2010

Comedian Pete Lee will perform on Wednesday, September 15, 2010 at 8 p.m. in Kiehle Auditorium. This event is FREE!

Pete Lee is a total momma’s boy. He is about as tough as fire on a floating candle. If Pete were your best friend, you would never stop making fun of him for being a total sally. Pete mixes cutting punchlines with an underdog perspective to absolutely roast himself on stage. His likable style and self-deprecating humor have made him one of the hottest acts today. He made his television debut on Comedy Central's Premium Blend. Since then, he has been a standout at the Montreal Just For Laughs Comedy Festival. His comedy CD Gasmoney plays in regular rotation on XM and Sirius Satellite Radio. He is a regular on the Bob and Tom radio show. Last year, he was selected as a semi-finalist on NBC’s Last Comic Standing, filmed his own Comedy Central Presents Special and played a doctor on CBS’ As the World Turns. This year, his growing popularity placed him 12th out of the top 100 comedians in Comedy Central’s Standup Showdown. If you haven’t heard of Pete Lee yet, prepare to tell other people!

Spring 2009

The Study Abroad Fair will run from 10 a.m. to 2 p.m., on Monday, September 13 in the Northern Lights Lounge of the Sargeant Student Center.

There will be quite a buzz going on in the Sargeant Student Center during the Study Abroad Fair. People from several organizations will be here to visit about programs they offer overseas.

If you have an opportunity to stop there will be prizes, food, beverages and most of all a venue for you to explore. The program providers that will be available to you are: IPFANS (U of M, TC for Natural Resources), Australearn, ISA, Arcadia, AIFS, World Endeavors, Cross Cultural Solutions (our own Shawn Friedland student experience), CAPA (Lydia Lestling, student experience), UMC China Program, UMC Alternative Spring Break going to Spain Program, UMC France Program, and UMC exchange program to China.
**Volunteer Opportunities**

**Habitat for Humanity:** Learn some handy household skills while helping out a wonderful family! House #13 is currently under construction. There are opportunities most Saturdays for students to assist with the build from 9 a.m. to 3 p.m. I will send out notices for specific dates as we know the schedule, but if you are interested in being on the "Habitat Volunteer List," please let Lisa Loegering know.

**Update Your Address**

Please make sure your information is updated and correct by following these procedures:
From the UMC homepage select Current Students ♦ OneStop ♦ OneStop Home ♦ Under “Registration” (center column) click on Update / Suppress your Personal Information
1. Review all of the tabs to make sure your information is correct. Make changes as needed.

2. Click on the Personal Addresses tab. Home Address is your permanent address. Current Mailing Address is where you wish the University to mail all correspondence, such as special events information and other similar items.

3. Directory Suppression. In accordance with the Regent’s policy on access to student records, information about you generally may not be released to a third party without your permission. However, some student information—name, address, electronic (e-mail) address, telephone number, dates of enrollment and enrollment status (full time, part time, not enrolled, withdrawn and date of withdrawal), college and class, major, adviser, academic awards and honors received, and degrees earned—is considered public or directory information.

You may prevent release of public information outside the University. To do so, click on the Directory Suppression tab and then “request student directory suppression”. Once the suppress is put on, it will remain on until you request its removal. If you run into problems, you may come to the Office of the Registrar, 9 Hill Hall, for assistance.

4. Go to the Student Information Card and update your campus PO box and local phone numbers for UMC’s online directory. Campus PO boxes and local phone numbers for UMC’s online directory are stored in a separate system. Updates to your address information via onestop does NOT transfer to these directories.

**Private & Public Information**

The University collects and maintains a variety of information, including information about its students, faculty, staff and others. This information is collected in order to conduct University business. Information is classified as private or public based on federal and state law. (for more information go to: Privacy & Data Security)

Private information can only be released to the subject of the information and to those within the university who have a legitimate need-to-know, outside entities with the subject’s written permission, and others as allowed by law.

Public information is available to anyone who requests it, except in the case of student data, when the student has requested that no public information about him/her be released without express written permission.

Get the Facts About HPV:
Human papillomavirus or HPV is a virus you may not know too much about—but you should. HPV will affect an estimated 75% to 80% of males and females in their lifetime. For most, HPV clears on its own. But, for others who don’t clear certain types, HPV could cause significant consequences: cervical, vaginal, and vulvar cancers in females. Other types could cause genital warts in both males and females. And there’s no way to predict who will or won’t clear the virus.

Who should get vaccinated with Gardasil?
GARDASIL is for females and males ages 9 to 26. When it comes to human papillomavirus (HPV) vaccination, females are only half the equation. Males can get vaccinated, too. Like other vaccines, GARDASIL works to help prevent illness. GARDASIL works when given before there is any contact with the relevant HPV types. Girls and boys as young as 9 can get vaccinated.

If you’re a young adult who is already sexually active, you may still benefit from GARDASIL. That’s because even if you have been exposed to HPV, you may not have been exposed to the types of the virus covered by this HPV vaccine. GARDASIL could still help protect you against the relevant HPV types to which you haven’t been exposed.

If you are considering GARDASIL check out the following web site for more information www.gardasil.com
