*Develop your own individual Leadership Mission through a critical examination of personal values, interests, goals and role models
*Identify your personal leadership style and utilize it effectively
*Recognize and embrace the value of leadership styles different than your own
*Appreciate the value of service as an integral element of successful leadership
*Contribute effectively in group decision-making
*Gain decision-making abilities and self confidence critical to effective leadership
*Become empowered to act as a leader within your community or workplace
*Understand the importance of leadership on a global scale, and the role of the U.S. within that global community

Location: Auckland (Known as the city of sails), Rotorua (Cultural Icon in New Zealand), Wellington (New Zealand’s center of government, & third most populous urban area of New Zealand), Abel Tasman National Park (Granite Cliffs, world famous track), Franz Josef (Gia- cier Hike), and Queenstown (New Zealand’s alpine resort).
There will be a Gardasil vaccination clinic
Wednesday, Sept. 12, 3:00 to 4:00 - in the UMC Student Health office, 145F SCC
Students can get the Gardasil vaccine for $5.00. No appointment necessary.
Contact Stacey Grunewald, 8512 with questions.

Get the Facts About HPV

Human papillomavirus or HPV is a virus you may not know too much about—but you should. HPV will affect an estimated 75% to 80% of males and females in their lifetime. For most, HPV clears on its own. But, for others who don’t clear certain types, HPV could cause significant consequences: cervical, vaginal, and vulvar cancers in females. Other types could cause genital warts in both males and females. And there’s no way to predict who will or won’t clear the virus.

Who should get vaccinated with Gardasil? GARDASIL is for females and males ages 9 to 26. When it comes to human papillomavirus (HPV) vaccination, females are only half the equation. Males can get vaccinated, too. Like other vaccines, GARDASIL works to help prevent illness. GARDASIL works when given before there is any contact with the relevant HPV types. Girls and boys as young as 9 can get vaccinated.

If you’re a young adult who is already sexually active, you may still benefit from GARDASIL. That’s because even if you have been exposed to HPV, you may not have been exposed to the types of the virus covered by this HPV vaccine. GARDASIL could still help protect you against the relevant HPV types to which you haven’t been exposed.

If you are considering GARDASIL check out the following web site for more information www.gardasil.com
