Notice from The Post Office
Effective July 1, 2013, there was an official change to the UMC Post Office policy pertaining to packages being sent from campus. The change has been approved by the Chancellor’s Cabinet. The UMC Post Office will now charge a $10 handling charge in addition to actual shipping/ mailing charges for items brought to the UMC Post Office unpackaged but which need to be mailed out. This handling charge will cover the cost of packaging materials and staff time. No such charge will be added to packages which are already properly prepared and ready for mailing. Please contact Ken Mendez in the Post Office with any questions on the policy change.

Welcome to UMC. It is important to know that the UMC Email is the Official Student Communication.

Please check your email regularly for official and important information. The emails may include topics such as registration, tuition refund, mid-term alert, emergency situations, and more. The full policy can be found at: http://www.fpd.finop.umn.edu/groups/ppd/documents/policy/Email_Pol.cfm

Below is an overview of the university policy

Policy Statement

A University assigned student email account shall be the University’s official means of communication with all students. Students are responsible for all information sent to them via their University assigned email account. If a student chooses to forward their University email account, he or she is responsible for all information, including attachments, sent to any other email account.

Reason for Policy

The University of Minnesota provides students with an email account upon the student’s matriculation to the institution. This account is free of charge and currently is active as long as the student remains active. Increasingly, email is becoming the primary mode of communication between students and the University. The information distributed via email varies from college updates to registration summaries.

Some students do not use their University assigned email account. Other students forward their University email account to an alternative account (i.e., Hotmail, AOL, Yahoo, etc.). When students do not use or forward their University assigned email account, vital information is often not conveyed as the email is unopened or the associated attachment is not forwarded.

It is imperative that students understand that a majority of information will be communicated to them via their University assigned account while they are students. To better serve our students, upon matriculation students are informed that their University assigned email account is the primary means of communication from the University community and that they will be held responsible for the information in the email.
