Background on Banned Books Week
Banned Books Week is an annual event celebrating the freedom to read. Typically held during the last week of September, it highlights the value of free and open access to information. Banned Books Week brings together the entire book community—the librarians, booksellers, publishers, journalists, teachers, and readers of all types—in shared support of the freedom to seek and to express ideas, even those some consider unorthodox or unpopular.

The books featured during Banned Books Week have all been targeted with removal or restrictions in libraries and schools. While books have been and continue to be banned, part of the Banned Books Week celebration is the fact that, in a majority of cases, the books have remained available. To learn more, visit www.ala.org/bbooks/bannedbooksweek.

Today the University of Minnesota, Crookston delivers 29 bachelor’s degree programs, 20 minors, and 36 concentrations on campus—as well as 13 degrees online—in the areas of agriculture and natural resources; business; liberal arts and education; and math, science and technology. With an enrollment of 1,800 undergraduates from more than 20 countries and 40 states, the Crookston campus offers a supportive, close-knit atmosphere that leads to a prestigious University of Minnesota degree. “Small Campus.
