Preventative Health Information For UMC

Cold and Flu season is fast approaching. Along with influenza there are many other viral illnesses to be concerned about. Currently, UMC is experiencing a small outbreak of suspected hand-foot-and-mouth disease cases. Hand-foot-and-mouth disease (HFMD) is a mild, contagious viral infection that is common among children, but can occur in adults, and is characterized by sores in the mouth and a rash on the hands and feet.

The signs and symptoms of HFMD are mild and usually start with a fever, poor appetite, malaise, and a sore throat. One or two days after the fever begins sores usually develop in the mouth. A rash on the hands and feet can follow within one or two days. There is no specific treatment for HFMD. However, you can relieve symptoms with over-the-counter medications such as Tylenol or Ibuprofen. The signs and symptoms of HFMD usually clear up in 7-10 days without any specific treatment.

To lower your risk of infection:

- Wash hands frequently and thoroughly with warm soapy water for at least 20 seconds. Use hand wipes or sanitizers when soap isn’t available. Wash your hands especially after using the bathroom, blowing your nose, coughing and before preparing food and eating.

- Avoid close contact such as kissing, hugging, or sharing eating utensils, cups, or water bottles.

- Clean and disinfect frequently touched surfaces – such as cell phones and keyboards.

UMC strives to protect the health and safety of the community and as such we are taking extra precautions in disinfecting common areas. The best prevention to this and many other illnesses is to maintain good hygiene and wash your hands.

For more information on HFMD go to the Center for Disease Control website http://www.cdc.gov/hand-foot-mouth/about/index.html or the Mayo Clinic website http://www.cdc.gov/hand-foot-mouth/about/index.html.

Student Service on Senate committees

Which students are eligible to serve on a Senate committee?
All degree-seeking students - undergraduate, graduate, and professional - are eligible to join Senate committees. System campus students are encouraged to apply since student seats are reserved on some committees for system campus representatives.

If I’m from a system campus, how will I participate?
System campus students, faculty, and staff participate in most Senate committee meetings through Google hangout or a phone connection. There is no requirement that system campus members travel to the Twin Cities, where meetings are held.

When are meetings held?
All Senate committees meet on a set day of the week at a set time. Most committees meet between 9 a.m. - 5 p.m. There are no night or weekend meetings scheduled. More information on each committee, including the current meeting schedule, is available here.

Why serve on a Senate committee?
Committees are the critical point at which University policies and decisions on grading, evaluation of instruction, the budget, electronic privacy, research, environmental impacts, and many other matters important to the University community are debated and resolved.

A REBUS is a picture representation of a name, work, or phrase. Each “rebus” puzzle box portrays a common word or phrase. Can you guess what it is? Example)

Answer for Corporate: Because the word Corporate is getting smaller, the answer to the puzzle would be Corporate Downsizing!
