Comments

- 1 Yes, We would like to work together in the future, although the census is only done every 10 years.
- 2 The ambassadors while friendly and great to get the day started should not have to stay with their assigned company all day.
- 3 Small Room.
- 4 Separate room for interviewing applicants. Over all the Job Fair was great.
Did not receive info on Majors - maybe send a one page document with majors and number of students enrolled. We truly enjoyed our
- 5 "Master" student - Casey
Send a student body - wide email to promote the job fair. Our ambassador was great! But we noticed others congregating in clusters
- 6 that distracted from some booths - remind them to disperse, take a break.
- 7 I just don't remember reading information on school majors. Include information brochure.
